

Josh Wright

Chief Economist | iCIMS, Inc.

As Chief Economist at iCIMS, Josh is responsible for analyzing proprietary data in order to produce fresh insights on emerging trends in the U.S. labor market. He contributes to the publishing of quarterly trends reports, as well as semi-annual reports and blog posts on ad hoc labor topics. In addition, Josh supports in the development of software that allows customers to analyze their own performance relative to industry benchmarks by collaborating with data scientists, software developers, and marketing executives.

A former Federal Reserve staffer, Josh helped build the Fed's mortgage-backed securities (MBS) portfolio of more than \$1 trillion, among other responses to the global financial crisis.

As a researcher, he has published on labor and housing markets, as well as U.S. monetary policy, and advised policymakers across the legislative and executive branches of government.
